News Bulletin

20th September 2021

Year 11 Geography

Mrs Biddulph, Mr O'Connor and support staff have accompanied their Year 11 classes to the Peak District and would like to say well done to all those involved. All students worked incredibly hard and fully participated in all activities they were required to do. They should now have a much greater understanding of rivers, data collection methods and water management and treatment systems. The information they have gained from the day will be used within lessons and will hopefully be an area that they are assessed on in the final GCSE exam.

Uniform

Just a reminder that students are not allowed to have nose piercings in school. If your son / daughter arrives at school with a nose piercing, they will be asked to remove it.

We would encourage all students to bring a coat to school that will go over their blazer as they are queuing up outside school in the morning and will be outside for break and lunch.

Hoodies are not allowed to be worn under blazers, students can wear a black V neck jumper.

Year 6 & Year 5 Parents

This Thursday, Sir Thomas Boughy Academy are delighted to announce the opportunity to tour the school during a normal working day. To book, please scan the QR code or type: <https://bit.ly/38Uqlcw>

Please see poster sent out with the bulletin.

Extra-Curricular Activities

Year 7 and 8 Language Club

Starts Wednesday 22nd September 12:30pm Room 4

This week: **RUSSIA**

Design your own Russian doll and learn some key Russian phrases!

English Ambassadors

Mrs Chadwick and staff in the English faculty were very impressed by the quality of applications and expressions of interest in the English Ambassador roles. Thank you to the Year 10 and 11 students for your interest and Mrs Chadwick hopes to announce the roles this week.

Maths Period 6 sessions

Mrs McCaffrey is running after school sessions to her Year 11 students after school on a Tuesday and Wednesday. All students are encouraged to attend.

Curriculum for Life

Following on from the success of the AQA Unlocking Potential courses of the last 3 years, former World BMX Champion, Kelvin Batey, has begun working with the Year 9 Curriculum for Life students on a social action project. We look forward to welcoming him into school 8 times this academic year. The pupils made a fantastic start and impressed him with their effort, attitude and application. Well done to all.

Technology

Imedia Year 11: we are currently working on creating the website for the travel blog, although students cannot currently work on this at home, the software we use in school is free to download on any device. This will allow students to practice skills and use tools that they will be using in school with their travel blog website. Rocketcake can be download for free on any device.

Imedia Year 10: we are currently creating the book cover for their controlled assessment, although they cannot work on this from home, there is a piece of software online called PhotoPea. This is very much like Photoshop so would benefit pupils to be practising skills and using tools at home in order to help with the creation in class.

Stars of the Week

Geography - All GCSE Geography students who participated in the trip to the River Dane!

Year 9 S Grainger, J Allman, C Seaton, J Taylor, M Preece: outstanding effort with Geography homework linked to population and resources.
